Mr. Kestutis Kadunas  
Lithuania CWP

Stockholm August 31, 2006

Dear Mr. Kadunas ,

Both Maggie and I were delighted that you had the possibility to join us and give your personal presentation at our CWP meeting in Södertälje, now nearly two weeks ago.

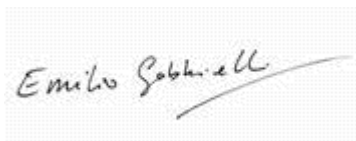

The GWP Secretariat has received a lot of positive feedback from the participants to our meetings and an evaluation form will be sent out for a proper follow up on the events to all participants. We expect that a full report on the outcome of our meetings will be presented in late September.

Meanwhile the Secretariat is planning on distributing the GWP Anniversary book to all our Partners around the world during the fall, translated into yet another four languages.

Maggie and I feel that GWPO is well prepared for the next decade by having had these meetings with participation of the Country Water Partnerships, thus making a “reality check” within the organization. We are confident that GWP’s mission of “knowledge-brokering” is really starting to pay off around the world !

Kindly accept our true appreciation of your presentation.

Warm regards,

Emilio Gabbrielli  
Executive Secretary
